Not every frontend engineer has shipped to the App Store. I have — twice. With 4+ years of experience across React.js, Next.js, and React Native, I build fast, clean, and pixel-perfect interfaces backed by solid engineering decisions. I have led teams, architected component systems from scratch, and delivered products real users depend on daily. Open to remote opportunities internationally.

EXPERIENCE

Senior Frontend & Mobile Engineer

May 2024 – Present

[QCclose](#) · Remote

- **UI Development:** Designed and built multiple web products for QCcloseHR using React.js and Next.js — delivering responsive, pixel-perfect dashboards, management portals, and user-facing interfaces.
- **Component Systems:** Architected and maintained a reusable component library across web (React.js / Next.js) and mobile (React Native), ensuring visual consistency and accelerating development cycles.
- **Mobile Development:** Led end-to-end development of QCcloseHR and QCcloseSafety — two React Native apps shipped to production on the Apple App Store and Google Play Store.
- **Performance:** Optimized frontend performance across web and mobile, improving load times and interaction responsiveness through code splitting, lazy loading, and efficient state management.
- **Integration:** Consumed and integrated REST APIs into frontend clients using Axios, implementing secure token-based authentication and reliable data flows.
- **Technical Leadership:** Mentored junior developers in React.js and React Native best practices, improving team code quality and delivery speed.

Frontend Development Lead

June 2022 – March 2024

[Groomlog](#) · Abeokuta

- **UI/UX Transformation:** Overhauled the UI/UX design workflow, reducing development cycles by 30% through better design systems and tooling.
- **User Engagement:** Redesigned key interfaces, achieving a 40% increase in user engagement and improved customer retention.
- **Component Architecture:** Engineered a modular React.js codebase enabling component reuse across the application and faster feature delivery.
- **PWA Integration:** Led adoption of Progressive Web App technology, delivering offline functionality and faster load times that drove user retention.

Frontend Engineer

Dec 2021 – April 2022

[Nestlypay](#)

- **Performance:** Cut page load times by 50% through systematic optimization of frontend assets — directly improving UX and SEO rankings.

- **Cross-Browser Compatibility:** Eliminated all user-reported browser compatibility issues, broadening accessibility across major platforms.

FEATURED PROJECTS

QCloseHR — HR & Workforce Management App

Senior Mobile Engineer · iOS & Android · Production

Cloud-based HR and workforce platform enabling organizations to manage employee attendance, shift scheduling, leave requests, payroll access, task management, KPI tracking, and workforce analytics — all from a mobile-first experience.

Tech: React Native, TypeScript, Node.js, Laravel, Spring Boot, REST APIs

■ [App Store](#) · ■ [Google Play](#)

QCloseSafety — Operational & Service Management App

Mobile Engineer · iOS & Android · Production

Productivity and service management platform that simplifies operational workflows, tracks employee activity in real time, and delivers operational analytics through a mobile-first interface.

Tech: React Native, TypeScript, REST APIs, Mobile-first architecture

■ [App Store](#) · ■ [Google Play](#)

WatchCord — Discord Server Monitor Platform

Full-Stack Engineer · Personal Project · Live on AWS EC2

Multi-user web platform that monitors Discord servers in real time, sending instant alerts to private channels when keywords are mentioned or new members join. Features per-user isolated bot instances, live filterable log feeds, dynamic server management, and a sleek dark UI — deployed on AWS EC2 with PM2 and exposed via Cloudflare Tunnel.

Tech: React.js, Vite, Node.js, Express, SQLite, JWT, discord.js, PM2, AWS EC2, Cloudflare Tunnel

■ [Live Demo](#)

GrandX Studio — Premium Design & Technology Studio Website

Frontend Engineer · Live Production

A premium design and technology studio website featuring scroll-driven animations, marquee effects, and a fully responsive UI. Built to demonstrate high-end frontend craft, with every interaction refined to deliver an extraordinary web experience.

Tech: React.js, CSS Animations, Responsive Design

Selected Client Work — GeegPay, ClearLink, Wibe Studio & more

Frontend Engineer · 150+ Web Products Delivered

Delivered a wide range of production web applications for clients across multiple industries — including finance dashboards (GeegPay), video communication platforms (ClearLink), and fashion e-commerce experiences (Wibe Studio) — with a consistent focus on clean UI, performance, and user experience.

Tech: React.js, Next.js, Chart.js, WebRTC, REST APIs, Animation libraries

TECHNICAL SKILLS

Languages	JavaScript (ES6+) · TypeScript · HTML5 · CSS3
Frontend	React.js · Next.js · React Native · Tailwind CSS · Material UI · Ant Design · Bootstrap
State & Data	React Context · React Hooks · Axios · Fetch API · REST APIs
Tooling	Vite · Webpack · Laravel Mix · npm · Git · GitHub / GitLab

Mobile	React Native · Expo · iOS (App Store) · Android (Play Store)
Backend	Node.js · Laravel · Spring Boot · Express
Databases	MySQL · PostgreSQL · MongoDB · SQLite
Deployment	AWS EC2 · Vercel · PM2 · Cloudflare Tunnel · Docker
Design	Figma · Adobe Illustrator · Photoshop

EDUCATION & LANGUAGES

B.Eng – Electrical & Electronic Engineering
Federal University of Agriculture, Abeokuta (FUNAAB)
Languages: English (Fluent)

Ogun State, Nigeria
